Venue: Vachaspati Sabhagar and Seminar Hall 2, Saraswat Sadhana Sadan.

About The Programme:

Evaluation is an integral part of teaching-learning processes. The educational triangle cannot be considered complete without integrating various assessment devices and tools in the educational programmes and activities. In 21st century contextualities, the emphasis on making evaluation rubrics and formats meaningful and effective has become one of the important concerns. Needless to mention that teachers and teacher educators have to be properly guided, oriented and inducted into the new protocols of evaluations which are being promoted to enhance the credibility of procedures being put to use in the educational ventures of today. These procedures can be broadly grouped into maximal performance test such as achievement, aptitude test and the typical characteristics tests such as personality inventories and attitude scales. This workshop will focus on achievement test, its design, procedure for construction and validation including the score interpretations for various educational contexts.

Objectives:

The workshop is intended to achieve the following objectives:

1. To promote familiarity of the participants with new evaluation procedure in the area of educational achievement.
2. To acquaint the participants with the procedure of achievement test construction.
3. To build competencies related to designing of blue print for test construction including formulation of behavioural objectives.
4. To enhance the skills of item writing and screening of test items using appropriate item analysis techniques.
5. To develop expertise in preparation of question paper for various levels of school education.
